

Ricoh Named Best Multifunction Printer Line of 2015!

We are pleased to announce that Ricoh has been named Buyer's Laboratory's Best Line of the Year. All MFP lines up for the award withstood extensive testing for consistency, production, and quality.

A large factor in determining this year's award winner was Ricoh's misfeed rate of **0.000005%**, showcasing the machine's incredible reliability. Ricoh's line also outperformed the competition in overall productivity, proving that Ricoh has the strength and durability to go the distance.

“Ricoh has offered consistently outstanding products across its entire line. The company stands out from the rest in nearly every speed band. From exceptional reliability to cutting-edge innovations, Ricoh shines in all of these key areas for buyers.”

- George Mikolay
BLI's Senior Product Editor for
A3 Copiers/MFPs.

In addition to being named Best Line of the Year, Ricoh also had the honor of winning awards for Outstanding Innovations. Worth noting is their Smart Operation Panel that was recognized for its easy-to-use interface. This device takes MFPs beyond the simple copy, fax, scan, and print functions, allowing end users to share data in new and imaginative ways.

Congratulations to Ricoh on a notable achievement. As the nation's largest Ricoh dealer, we could not be more proud.

RICOH
imagine. change.
